Notes to Financial Statements – Statutory Basis

1. Nature of Business and Summary of Significant Accounting Policies

Total Health Care USA, Inc. (the "Company"), a not-for-profit corporation and wholly owned subsidiary of Total Health Care, Inc., operates as a state-licensed health maintenance organization (HMO). The Company provides health plan coverage to persons primarily in southeastern Michigan who subscribe as part of an employer group or as individuals.

a. Accounting Practices

The accompanying financial statements of Total Health Care USA, Inc. (the "Company" or "THC") have been prepared in conformity with statutory accounting practices prescribed or permitted by Section 1007 of the Michigan statutes of the state of Michigan for determining and reporting the financial conditions and results of operations of an insurance company for determining its solvency under Michigan Insurance law. The National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures Manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of Michigan.

Statutory accounting principles differ from generally accepted accounting principles (GAAP) in their definition of assets and liabilities. Specifically, certain assets (such as certain receivables from affiliates) are excluded from the statutory-basis balance sheet. GAAP net assets exceed statutory net assets by approximately \$309,000 and \$725,000 at September 30, 2021 and December 31, 2020, respectively. There are no significant differences between statutory accounting principles prescribed by NAIC and the State of Michigan accounting requirements that are applicable to the Company.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Michigan is shown below:

b. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Certain significant estimates exist relating to unpaid claims, health policy reserves, and risk-sharing provisions. It is at least reasonably possible that these estimates will be materially revised in the near term.

c. Accounting Policy

Cash and Short-term Investments - The Company considers all highly liquid investments purchased with an original maturity of three months or less when purchased to be cash equivalents. Certificates of deposit in banks or other similar financial institutions with maturity dates of one year or less from the acquisition date are considered cash under statutory accounting principles. Short-term investments are stated at amortized cost.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments and long-term certificates of deposit are recorded at amortized cost, which approximates fair market value. Long-term certificates of deposit are classified as bonds on the balance sheet per statutory guidance. Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in net investment income on the statement of operations. Changes in unrealized gains and losses on investments are included as a direct adjustment to capital and surplus.
- (2) Bonds are not backed by other loans and are stated at amortized cost using the interest method.
- (3) The Company had no common stock.
- (4) The Company had no preferred stock.
- (5) The Company had no mortgage loans.
- (6) The Company had no loan-backed securities.
- (7) The Company had no subsidiaries, controlled or affiliated investments.
- (8) The Company had no joint ventures of limited partnerships.
- (9) The Company had no derivatives.

(10) The Company does not utilize anticipated investment income as a factor in the premium deficiency calculation.

(11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.

(12) The Company has not modified its capitalization policy from the prior period.

(13) The Company's pharmaceutical rebate receivables are estimated based prior period actual receipts.

Revenue Recognition and Accounts Receivable - Subscriber premiums are recognized in the period that members are entitled to related health care services. A substantial portion of health premiums due and unpaid is due from third-party payers for subscribers located within southeastern Michigan. Health premiums due and unpaid are stated at invoice amounts. No allowance for doubtful accounts is recorded at September 30, 2021 and December 31, 2020, respectively. Unpaid invoices greater than 90 days old are treated as non-admitted for statutory accounting purposes. Approximately \$309,000 and \$725,000 of receivables greater than 90 days old were non-admitted at September 30, 2021 and December 31, 2020, respectively.

Recognition of Medical and Hospital Expenses - Medical and hospital expenses and the related liabilities are recorded when eligible medical and hospital services are authorized or performed. Claims unpaid represent management's estimate of the ultimate cost to settle all claims incurred prior to year-end.

Physician Group Contracts - The Company contracts with certain physician groups for the provision of medical care and compensates the groups on a capitation basis. These contracts have a pay-for-performance incentive. If the providers meet the incentives, they share in the savings and a payable is recorded. During 2021 and 2020, health care payables have been recorded to providers.

Hospital and Other Group Contracts - The Company contracts with several hospitals and other groups. These contracts are paid under a capitation fee or various other charge arrangements.

Malpractice Claims - The Company has a claims-made policy for malpractice insurance. The Company's policy is to accrue for estimated costs of claims and incidents during the term of the claims-made policy.

Employee, Office Space and Equipment Leasing Agreement - The Company has an employee, office space and equipment leasing agreement with Total Health Care, Inc., its parent company, which is responsible for payment of most of the management, operational, and administrative expenses.

Income Taxes - Total Health Care USA, Inc. has received federal income tax exemption under Internal Revenue Code Section 501(c)(4). The Company is also exempt from state and local income taxes.

20. Fair Value Measurements

The following table presents information about the Company's assets and liabilities measured at fair value at September 30, 2021, and the valuation techniques used by the Company to determine those fair values.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based in the lowest level input that is significant to the valuation. The Company's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The fair value of bonds was determined primarily based on level 2 inputs. The Company obtains the fair value of these investments based on values determined and provided by the investment custodians.

Subsequent events have been considered through 11/15/2021 for the statutory statement issued September 30, 2021.

STATEMENT AS OF SEPTEMBER 30, 2021 OF THE TOTAL HEALTH CARE USA, INC.

The Company was subject to an annual fee under section 9010 of the Affordable care Act (ACA). The 2020 annual fee was allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. During 2018, legislation was enacted which suspends the collection of the health insurance provider fee for the 2019 calendar year only. As a result, health insurers, including the Company, were not required to pay the fee during 2019. During 2019, the Company wrote health insurance subject to the ACA assessment for 2020. The Company's portion of the annual health insurance industry fee paid in 2020 was \$1,473,375. This assessment was repealed in December 2019. 2020 is the last year the fee was assessed.

25. Change in Incurred Claims and Claims Adjustment Expenses

Reserves as of December 31, 2020 were \$15,366,380. As of September 30, 2021, \$13,342,042 has been paid for incurred claims and claims adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$705,333 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on Comprehensive Medical lines of business. Therefore, there has been a \$1,319,005 favorable development since December 31, 2020 to September 30, 2021. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this decrease, the Company experienced \$0 of favorable prior year claim development on retrospectively rated policies. However, the business to which it relates is subject to premium adjustments.
